

Talens Gouache Extra Fine Quality

08820415 - Talens Gouache Extra Fine mixing set | 5 x 20 ml tubes

Gouache set of 5 colours in ready-to-use aluminium tubes. This set contains the essential colours for mixing, whether you are learning about colours for the first time, or ready to mix your own custom colours. The tubes come in a sturdy cardboard box with convenient colour swatches.

Characteristics:

- Talens Gouache Extra Fine is a highly pigmented paint with a matt finish.
- Although gouache is popular amongst artists and designers for its intense and opaque colours, they can be made slightly more transparent by adding water.
- Gouache is made with a high concentration of high-quality pigments and based on dextrin, which gives the paint a smooth consistency and reduces surface gloss.
- Use gouache to create even, matt colour blocks without visible brush strokes.
- Mix the colours with water to thin, mix and create smooth colour transitions.
- Gouache is not waterproof when dry, which means you can still rework the colours with water after they have dried.
