DREO

DREO | Solaris 718

Powerful and Widespread Heating

Experience instant and efficient warmth with DREO's 30" ceramic heater featuring a 308mm large PTC element, upgraded Hyperamics thermal design, and 30°-60°-90°-120° customizable oscillation, perfect for large rooms up to 25 ㎡.

All-around Safety

Stay warm this winter with peace of mind. Our heaters for indoor use offers 8 comprehensive protections, including V0 flame-retardant material, cool-touch housing, FortPlug, thermal insulated wiring, child lock, 45° tip-over protection and overheat protection, all certified by CE.

Heat the Way You Like

This electric space heater offers 9 comfort levels to suit your needs. Choose from 5 heat levels and ECO mode for optimal warmth, or switch to 3 fan levels to create air circulation.

Precise Temperature Control

Powered by advanced controllable silicon technology, this energy-efficient space heater provides precise temperature control and up to 50% energy savings, bringing you all-day comfort without worrying about your electricity bills.

Description

25dB Extreme Quietness
Enjoy a warm, comfortable environment without disturbance. DREO's innovative airflow design reduces noise to an ultra-quiet 25 dB, making this heater for bedroom ideal for a peaceful night's sleep or a quiet, focused workspace.

Specification

Product	DR-HSH008 - DREO Heater Solaris 718
Motor	DC
Maximum airflow speed	3 m/s
Oscillation	120° Horizontal
Speed levels	5 Heating / ECO
Noise level	25dB
Timer	0–12 hours
Smart control	/
Product Dimensions/cm	20*20*75.6
Product Weight	4.5 KG
Power consumption	2000W
