

PRIVACY

PRIVACY FILTERS GOLD/BLACK GLOSSY

With a Gearlab® Gold Privacy Filter you get a crisp and clear, high-contrast, high-resolution rendering of your display, while people on either side only see a vibrant glossy golden or black shield. At the same time, you protect the sensitive screen surface from scratches and damage.

Protect your company data and GDPR compliance – both on the move and in the office – by keeping your login credentials, sensitive personal and confidential data unexposed to unwanted onlookers.

Gearlab® Privacy Filters with a vibrant golden shield, reversible to black glossy.
