EUROPEAN HALF TE5

EUROPEO BOTÓN TE5  
EUROPEAN BUTTON TE5

El TE5 es un cilindro de llave de secreta y cinco pistones, de la gama básica de cilindros de TESA. Se caracteriza por una gran fiabilidad y robustez en el uso y es una solución adecuada para accesos comunes. Este cilindro ofrece una capacidad de amaestramiento adecuada para pequeñas y medianas instalaciones. Además dispone de una amplia gama de medidas y modelos, cubriendo así, la reposición de cilindros para cerraduras como la 2000, 56-125, etc. El cilindro TE5 de TESA se sirve con tres llaves de hierro níquelado y está certificado según la norma EN-1303.

The TE5 is a secret key cylinder with five pins, from TESA's basic range of cylinders. It is characterized by great reliability and robustness in use and is a suitable solution for common access points. This cylinder offers a suitable master keying capacity for small and medium-sized installations. Additionally, it has a wide range of sizes and models, thus covering the replacement of cylinders for locks such as the 2000, 56-125, etc. The TE5 cylinder from TESA comes with three nickel-plated iron keys and is certified according to the EN-1303 standard.

- Posibilidad de llaves iguales bajo pedido. Consultar.
- Possibility of identical keys upon request. Inquire.
