## INFORMACIÓN IMPORTANTE DE SEGURIDAD

Para garantizar el funcionamiento seguro del dispositivo y la seguridad de los usuarios, lea las siguientes instrucciones de seguridad y actúe en consecuencia.

**ADVERTENCIA: Existe el riesgo de incendio o de descarga eléctrica si el dispositivo se usa incorrectamente.**

Si tiene problemas con el dispositivo, póngase en contacto con su distribuidor para solicitar ayuda. Los daños accidentales producen la pérdida de validez de la garantía.

1. El dispositivo debe usarse dentro de las salidas de potencia nominal publicadas.
2. El dispositivo se recomienda solo para uso en interiores y en lugares secos.
3. No coloque el dispositivo cerca de otros dispositivos que emanen vapor o de fuentes de calor.
4. Evite la exposición del dispositivo a fuentes de calor externas, rayos solares, polvo, sustancias químicas corrosivas, vapor, líquidos y humedad.
5. Manipule el dispositivo con cuidado. No arroje el dispositivo ni lo someta a golpes físicos innecesarios.
6. El dispositivo no tiene en su interior piezas que pueda reparar el usuario. Si tiene algún problema con el dispositivo, no intente repararlo usted mismo.
7. Desenchufe el dispositivo durante los periodos de inactividad prolongados y durante las tormentas eléctricas.
8. No utilice el dispositivo para hacer funcionar o controlar dispositivos emisores de calor no custodiados.
9. La toma/el enchufe de corriente deben ser de fácil acceso y deben estar ubicados cerca del dispositivo que se va a usar con el producto.
10. No apile varios dispositivos sobre el producto.
11. No conecte ninguno de los siguientes aparatos por ejemplo: calentador, bomba de agua, sistema automático de rociadores de césped, cocina de inducción, dispositivos radiantes, horno de microondas y cualquier otro dispositivo de alta potencia.
12. Compruebe el amplificador del dispositivo antes de enchufarlo a la toma de corriente para evitar cualquier peligro eléctrico, agotamiento o peligro.

# I. Información del producto y de seguridad

---

La base múltiple inteligente SP-1123WT equipada con 3 enchufes y 4 puertos USB de carga le permite controlar sus dispositivos eléctricos desde cualquier parte utilizando su teléfono inteligente para establecer horarios, encender y apagar los dispositivos con la aplicación EdiSmart Pro o utilizar órdenes de voz con Alexa de Amazon, el Asistente de Google o Siri de Apple.

Instale la unidad con las restricciones de seguridad que se indican a continuación:

- La potencia nominal máxima no debe superarse, con el fin de garantizar la vida útil y el buen funcionamiento del producto.
- Manténgalo alejado de cualquier fuente de calor.
- Los niños no deben utilizar este producto sin la supervisión de un adulto.
- Este producto no dispone de protección pararrayos. Se recomienda apagar la alimentación en caso de rayos.
- Cuando la base múltiple inteligente esté encendida, no inserte materiales conductores en el enchufe.

**Si no se siguen estas pautas indicadas, la vida útil de la base múltiple inteligente puede verse reducida.**

### III. Instalación del dispositivo

---

Siga los pasos indicados a continuación para instalar su base múltiple inteligente.

1. Conecte la base múltiple inteligente en la toma de corriente de la pared.

2. Enchufe un aparato a la base múltiple inteligente, por ejemplo una cafetera, una lámpara o la televisión.

## IV. Instalación de la aplicación EdiSmart Pro

---

Busque y descargue «EdiSmart Pro» en la tienda de aplicaciones de Apple o en Google Play. Abra «EdiSmart Pro» en su dispositivo móvil inteligente.

Antes de utilizar la aplicación EdiSmart Pro, asegúrese de que:

- Su dispositivo móvil esté conectado a una red wifi de 2,4 GHz.

**NOTA: Solo se admiten redes wifi de 2,4 GHz. Seleccione una red wifi de 2,4 GHz.**

- Vaya a la sección de idiomas de su teléfono y seleccione el idioma que desee utilizar con la aplicación EdiSmart Pro. Por ejemplo, si cambia el idioma de su teléfono a inglés, su aplicación EdiSmart Pro debería indicar automáticamente el idioma que ha elegido.

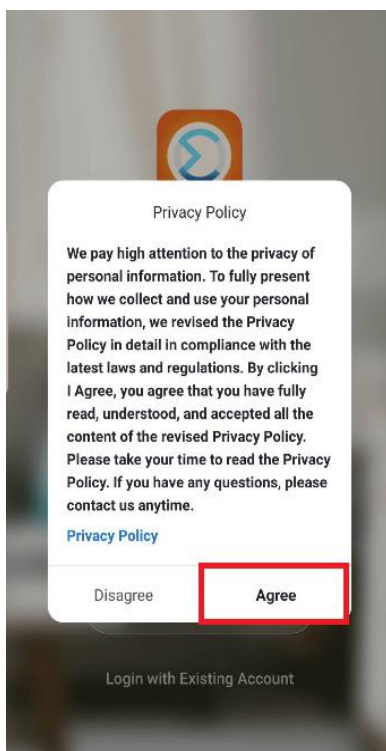

## IV-1. Crear cuentas

Siga los pasos siguientes para configurar su aplicación EdiSmart Pro:

1. Abra la aplicación EdiSmart Pro en su dispositivo y haga clic en el botón «Registrarse» para crear una cuenta con su correo electrónico o su número de teléfono.

2. Después de hacer clic en el botón de registro, aparecerá un mensaje sobre la política de privacidad. Haga clic en el botón «Aceptar» para ir al paso siguiente.

3. Seleccione su región e introduzca el correo electrónico o el número de teléfono. Y haga clic en el botón «Obtener código de verificación» para recibir su código de verificación de 6 dígitos.

## Enter Verification Code

Verification code has been sent to your mobile phone:  
[Redacted] Resend(49s)

4. Escriba una contraseña de entre 6 y 20 caracteres que incluya letras y números. Haga clic en el botón «Listo».

## Set Password

6 to 20 characters, including letters and digits

Done

¡Enhorabuena! Ha completado la instalación.

**NOTA: Si ya tiene una cuenta EdiSmart Pro, haga clic en «Iniciar sesión con una cuenta existente» para acceder. Seleccione su región, introduzca su número de teléfono o correo electrónico y haga clic en el botón «Iniciar sesión» para entrar en su cuenta.**

## V. Añadir dispositivos (con la interfaz de Android)

---

Siga las instrucciones siguientes para añadir un nuevo dispositivo.

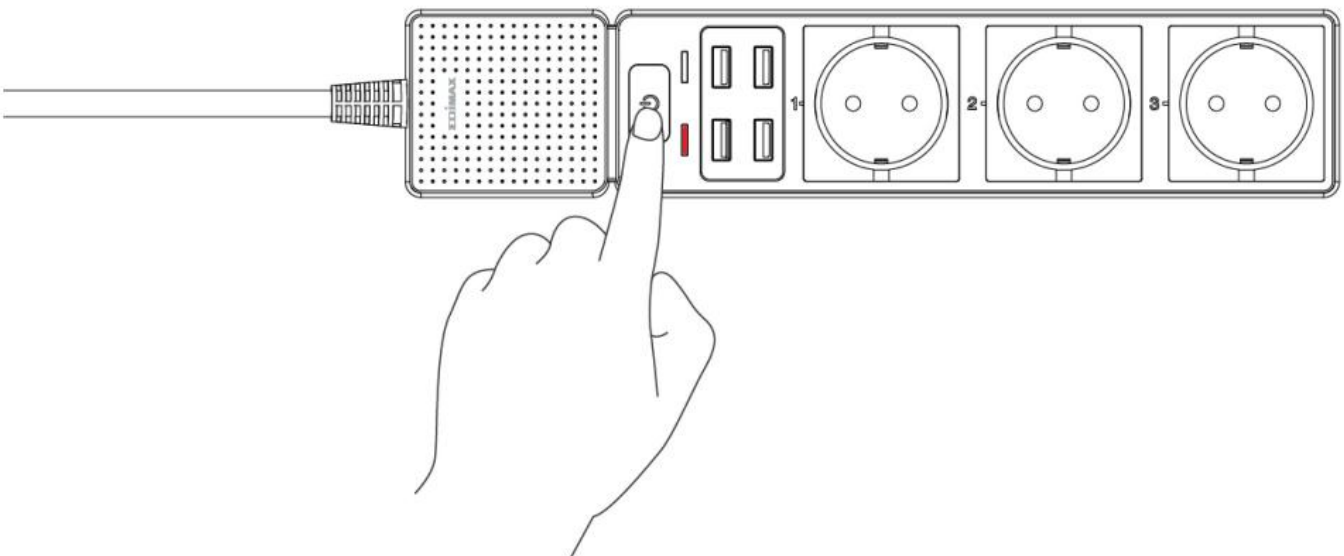

1. Haga clic en el botón «Añadir dispositivo» o en el icono «+» de la esquina superior derecha.

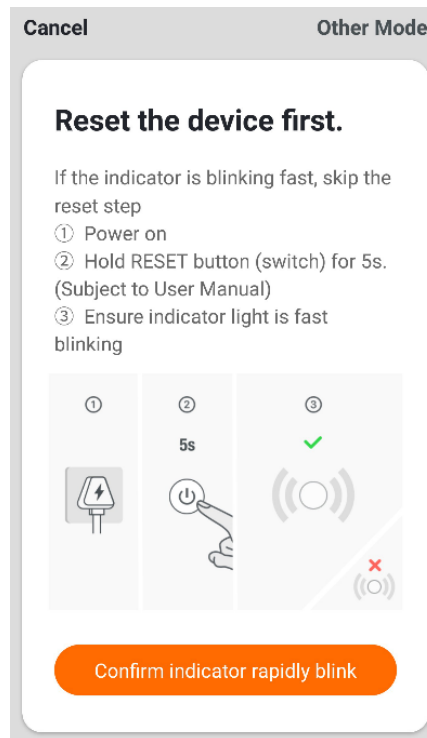

2. Seleccione «Añadir manualmente» y la base múltiple (wifi).

3. Active el modo de emparejamiento en la base múltiple inteligente.  
Mantenga pulsado el botón de encendido durante 5-7 segundos hasta que la luz led de encendido se ilumine en **rojo**.

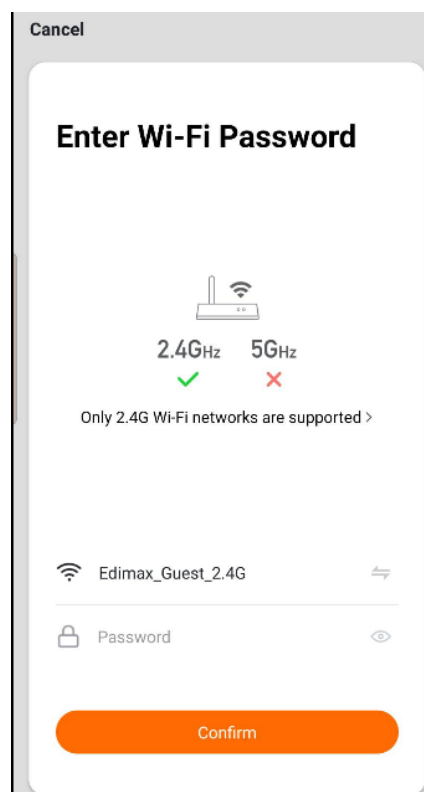

4. Pulse el botón «Confirmar que el indicador parpadea rápidamente».

5. Introduzca la contraseña wifi y haga clic en el botón «Confirmar».

**NOTA:**

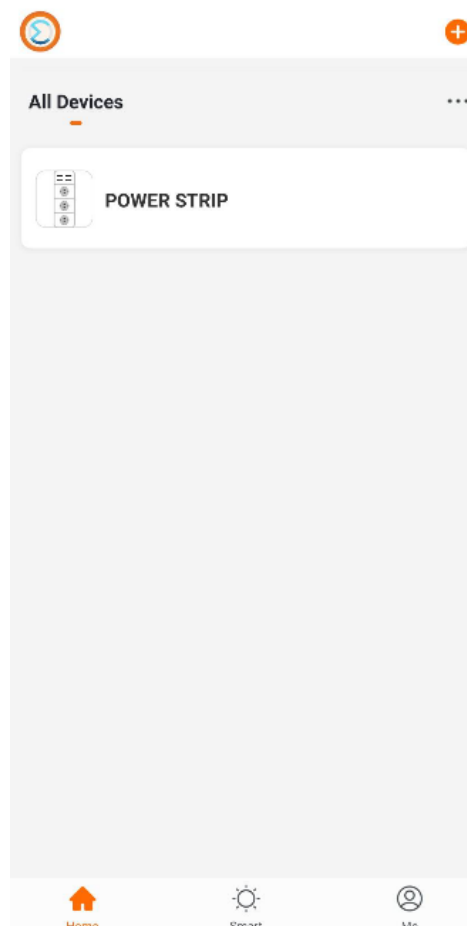

- **Asegúrese de que la conexión wifi esté encendida en todo momento.**
- **Introduzca manualmente el SSID del wifi en iOS.**

6. Espere a que la base múltiple inteligente se conecte a EdiSmart Pro.

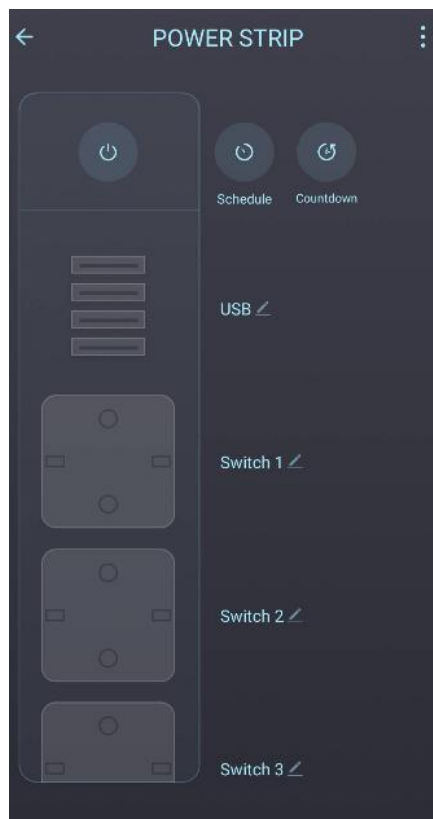

¡Enhorabuena! Ha completado la instalación.

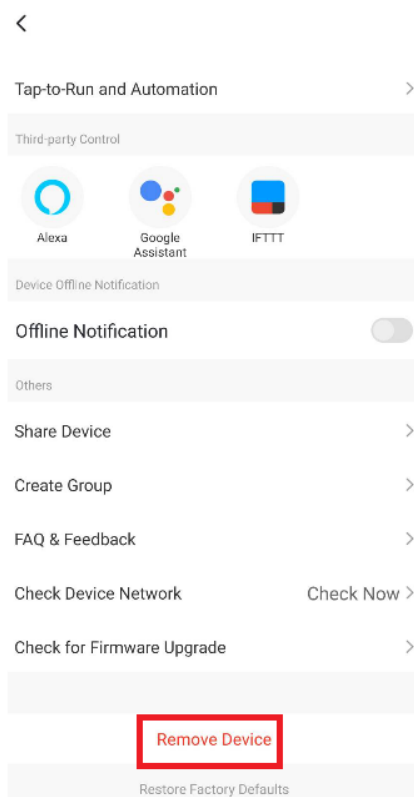

Después de una nueva instalación, la configuración puede modificarse en la página de dispositivos. Por ejemplo:

- Cuenta atrás (establecer el temporizador; programar el enchufe inteligente para que encienda/apague automáticamente sus aparatos según sus necesidades)
- Encendido (controlar el encendido remotamente desde cualquier lugar)
- Horario (programar la base múltiple inteligente para que encienda y apague los aparatos de acuerdo con sus necesidades)

**NOTA: Si desea quitar el dispositivo, haga clic en el icono  de la esquina superior derecha y en el botón «Quitar dispositivo».**

## VI. Configuración predeterminada de fábrica

---

Si tiene algún problema con su base múltiple inteligente, puede restablecer el dispositivo a la configuración de fábrica.

Hay 2 formas de restablecer el dispositivo.

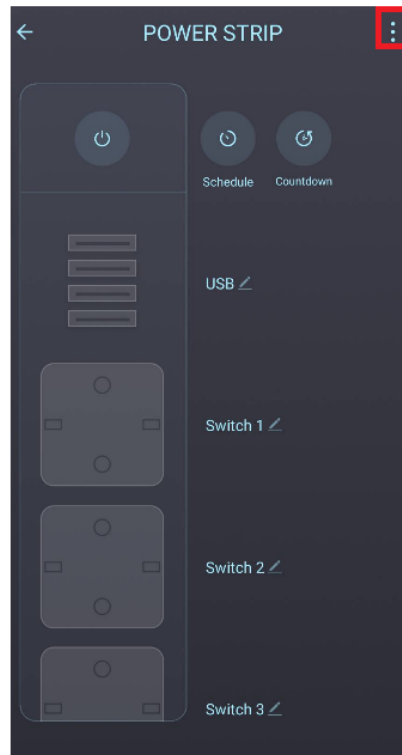

### Restablecimiento del hardware:

1. Mantenga pulsado el botón de encendido durante 5 segundos.
2. Espere a que la base múltiple inteligente se reinicie. La base múltiple inteligente estará lista para ser configurada cuando el led de alimentación parpadee en **ROJO**.

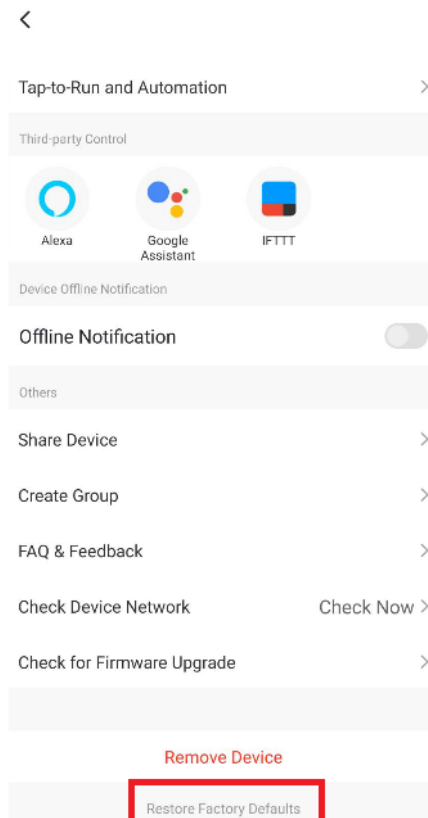

## Reinicio del software:

1. Haga clic en el icono  superior derecho de la página de dispositivos.

2. Haga clic en el botón «Restablecer valores de fábrica».

## Federal Communication Commission Interference Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

1. Reorient or relocate the receiving antenna.
2. Increase the separation between the equipment and receiver.
3. Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
4. Consult the dealer or an experienced radio technician for help.

### FCC Caution

Any changes or modifications not expressly approved by the party responsible for compliance could void the authority to operate equipment.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

### FCC Radiation Exposure Statement:

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body. For product available in the USA/Canada market, only channel 1~11 can be operated. Selection of other channels is not possible. This device and its antenna(s) must not be co-located or operating in conjunction with any other antenna or transmitter.

### Safety

This equipment is designed with the utmost care for the safety of those who install and use it. However, special attention must be paid to the dangers of electric shock and static electricity when working with electrical equipment. All guidelines of this and of the computer manufacture must therefore be allowed at all times to ensure the safe use of the equipment.

### EU Countries Intended for Use

The ETSI version of this device is intended for home and office use in Austria, Belgium, Bulgaria, Cyprus, Czech, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, Netherlands, Poland, Portugal, Romania, Slovakia, Slovenia, Spain, Sweden, Turkey, and United Kingdom. The ETSI version of this device is also authorized for use in EFTA member states: Iceland, Liechtenstein, Norway, and Switzerland.

## Notice According to GNU General Public License Version 2

This product includes software that is subject to the GNU General Public License version 2. The program is free software and distributed without any warranty of the author. We offer, valid for at least three years, to give you, for a charge no more than the costs of physically performing source distribution, a complete machine-readable copy of the corresponding source code.

Das Produkt beinhaltet Software, die den Bedingungen der GNU/GPL-Version 2 unterliegt. Das Programm ist eine sog. „Free Software“, der Autor stellt das Programm ohne irgendeine Gewährleistungen zur Verfügung. Wir bieten Ihnen für einen Zeitraum von drei Jahren an, eine vollständige maschinenlesbare Kopie des Quelltextes der Programme zur Verfügung zu stellen – zu nicht höheren Kosten als denen, die durch den physikalischen Kopiervorgang anfallen.

### GNU GENERAL PUBLIC LICENSE

Version 2, June 1991

Copyright (C) 1989, 1991 Free Software Foundation, Inc. 51 Franklin Street, Fifth Floor, Boston, MA 02110-1301, USA  
Everyone is permitted to copy and distribute verbatim copies of this license document, but changing it is not allowed.

#### Preamble

The licenses for most software are designed to take away your freedom to share and change it. By contrast, the GNU General Public License is intended to guarantee your freedom to share and change free software--to make sure the software is free for all its users. This General Public License applies to most of the Free Software Foundation's software and to any other program whose authors commit to using it. (Some other Free Software Foundation software is covered by the GNU Lesser General Public License instead.) You can apply it to your programs, too.

When we speak of free software, we are referring to freedom, not price. Our General Public Licenses are designed to make sure that you have the freedom to distribute copies of free software (and charge for this service if you wish), that you receive source code or can get it if you want it, that you can change the software or use pieces of it in new free programs; and that you know you can do these things.

To protect your rights, we need to make restrictions that forbid anyone to deny you these rights or to ask you to surrender the rights. These restrictions translate to certain responsibilities for you if you distribute copies of the software, or if you modify it.

For example, if you distribute copies of such a program, whether gratis or for a fee, you must give the recipients all the rights that you have. You must make sure that they, too, receive or can get the source code. And you must show them these terms so they know their rights.

We protect your rights with two steps: (1) copyright the software, and (2) offer you this license which gives you legal permission to copy, distribute and/or modify the software.

Also, for each author's protection and ours, we want to make certain that everyone understands that there is no warranty for this free software. If the software is modified by someone else and passed on, we want its recipients to know that what they have is not the original, so that any problems introduced by others will not reflect on the original authors' reputations.

Finally, any free program is threatened constantly by software patents. We wish to avoid the danger that redistributors of a free program will individually obtain patent licenses, in effect making the program proprietary. To prevent this, we have made it clear that any patent must be licensed for everyone's free use or not licensed at all.

The precise terms and conditions for copying, distribution and modification follow.

#### TERMS AND CONDITIONS FOR COPYING, DISTRIBUTION AND MODIFICATION

0. This License applies to any program or other work which contains a notice placed by the copyright holder saying it may be distributed under the terms of this General Public License. The "Program", below, refers to any such program or work, and a "work based on the Program" means either the Program or any derivative work under copyright law: that is to say, a work containing the Program or a portion of it, either verbatim or with modifications and/or translated into another language. (Hereinafter, translation is included without limitation in the term "modification".) Each licensee is addressed as "you".

Activities other than copying, distribution and modification are not covered by this License; they are outside its scope. The act of running the Program is not restricted, and the output from the Program is covered only if its contents constitute a work based on the Program (independent of having been made by running the Program). Whether that is true depends on what the Program does.

1. You may copy and distribute verbatim copies of the Program's source code as you receive it, in any medium, provided that you conspicuously and appropriately publish on each copy an appropriate copyright notice and disclaimer of warranty; keep

intact all the notices that refer to this License and to the absence of any warranty; and give any other recipients of the Program a copy of this License along with the Program.

You may charge a fee for the physical act of transferring a copy, and you may at your option offer warranty protection in exchange for a fee.

2. You may modify your copy or copies of the Program or any portion of it, thus forming a work based on the Program, and copy and distribute such modifications or work under the terms of Section 1 above, provided that you also meet all of these conditions:

- a) You must cause the modified files to carry prominent notices stating that you changed the files and the date of any change.
- b) You must cause any work that you distribute or publish, that in whole or in part contains or is derived from the Program or any part thereof, to be licensed as a whole at no charge to all third parties under the terms of this License.
- c) If the modified program normally reads commands interactively when run, you must cause it, when started running for such interactive use in the most ordinary way, to print or display an announcement including an appropriate copyright notice and a notice that there is no warranty (or else, saying that you provide a warranty) and that users may redistribute the program under these conditions, and telling the user how to view a copy of this License. (Exception: if the Program itself is interactive but does not normally print such an announcement, your work based on the Program is not required to print an announcement.)

These requirements apply to the modified work as a whole. If identifiable sections of that work are not derived from the Program, and can be reasonably considered independent and separate works in themselves, then this License, and its terms, do not apply to those sections when you distribute them as separate works. But when you distribute the same sections as part of a whole which is a work based on the Program, the distribution of the whole must be on the terms of this License, whose permissions for other licensees extend to the entire whole, and thus to each and every part regardless of who wrote it.

Thus, it is not the intent of this section to claim rights or contest your rights to work written entirely by you; rather, the intent is to exercise the right to control the distribution of derivative or collective works based on the Program.

In addition, mere aggregation of another work not based on the Program with the Program (or with a work based on the Program) on a volume of a storage or distribution medium does not bring the other work under the scope of this License.

3. You may copy and distribute the Program (or a work based on it, under Section 2) in object code or executable form under the terms of Sections 1 and 2 above provided that you also do one of the following:

- a) Accompany it with the complete corresponding machine-readable source code, which must be distributed under the terms of Sections 1 and 2 above on a medium customarily used for software interchange; or,
- b) Accompany it with a written offer, valid for at least three years, to give any third party, for a charge no more than your cost of physically performing source distribution, a complete machine-readable copy of the corresponding source code, to be distributed under the terms of Sections 1 and 2 above on a medium customarily used for software interchange; or,
- c) Accompany it with the information you received as to the offer to distribute corresponding source code. (This alternative is allowed only for noncommercial distribution and only if you received the program in object code or executable form with such an offer, in accord with Subsection b above.)

The source code for a work means the preferred form of the work for making modifications to it. For an executable work, complete source code means all the source code for all modules it contains, plus any associated interface definition files, plus the scripts used to control compilation and installation of the executable. However, as a special exception, the source code distributed need not include anything that is normally distributed (in either source or binary form) with the major components (compiler, kernel, and so on) of the operating system on which the executable runs, unless that component itself accompanies the executable.

If distribution of executable or object code is made by offering access to copy from a designated place, then offering equivalent access to copy the source code from the same place counts as distribution of the source code, even though third parties are not compelled to copy the source along with the object code.

4. You may not copy, modify, sublicense, or distribute the Program except as expressly provided under this License. Any attempt otherwise to copy, modify, sublicense or distribute the Program is void, and will automatically terminate your rights under this License. However, parties who have received copies, or rights, from you under this License will not have their licenses terminated so long as such parties remain in full compliance.

5. You are not required to accept this License, since you have not signed it. However, nothing else grants you permission to modify or distribute the Program or its derivative works. These actions are prohibited by law if you do not accept this License.

Therefore, by modifying or distributing the Program (or any work based on the Program), you indicate your acceptance of this License to do so, and all its terms and conditions for copying, distributing or modifying the Program or works based on it.

6. Each time you redistribute the Program (or any work based on the Program), the recipient automatically receives a license from the original licensor to copy, distribute or modify the Program subject to these terms and conditions. You may not impose any further restrictions on the recipients' exercise of the rights granted herein. You are not responsible for enforcing compliance by third parties to this License.

7. If, as a consequence of a court judgment or allegation of patent infringement or for any other reason (not limited to patent issues), conditions are imposed on you (whether by court order, agreement or otherwise) that contradict the conditions of this License, they do not excuse you from the conditions of this License. If you cannot distribute so as to satisfy simultaneously your obligations under this License and any other pertinent obligations, then as a consequence you may not distribute the Program at all. For example, if a patent license would not permit royalty-free redistribution of the Program by all those who receive copies directly or indirectly through you, then the only way you could satisfy both it and this License would be to refrain entirely from distribution of the Program.

If any portion of this section is held invalid or unenforceable under any particular circumstance, the balance of the section is intended to apply and the section as a whole is intended to apply in other circumstances.

It is not the purpose of this section to induce you to infringe any patents or other property right claims or to contest validity of any such claims; this section has the sole purpose of protecting the integrity of the free software distribution system, which is implemented by public license practices. Many people have made generous contributions to the wide range of software distributed through that system in reliance on consistent application of that system; it is up to the author/donor to decide if he or she is willing to distribute software through any other system and a licensee cannot impose that choice.

This section is intended to make thoroughly clear what is believed to be a consequence of the rest of this License.

8. If the distribution and/or use of the Program is restricted in certain countries either by patents or by copyrighted interfaces, the original copyright holder who places the Program under this License may add an explicit geographical distribution limitation excluding those countries, so that distribution is permitted only in or among countries not thus excluded. In such case, this License incorporates the limitation as if written in the body of this License.

9. The Free Software Foundation may publish revised and/or new versions of the General Public License from time to time. Such new versions will be similar in spirit to the present version, but may differ in detail to address new problems or concerns.

Each version is given a distinguishing version number. If the Program specifies a version number of this License which applies to it and "any later version", you have the option of following the terms and conditions either of that version or of any later version published by the Free Software Foundation. If the Program does not specify a version number of this License, you may choose any version ever published by the Free Software Foundation.

10. If you wish to incorporate parts of the Program into other free programs whose distribution conditions are different, write to the author to ask for permission. For software which is copyrighted by the Free Software Foundation, write to the Free Software Foundation; we sometimes make exceptions for this. Our decision will be guided by the two goals of preserving the free status of all derivatives of our free software and of promoting the sharing and reuse of software generally.

#### **NO WARRANTY**

11. BECAUSE THE PROGRAM IS LICENSED FREE OF CHARGE, THERE IS NO WARRANTY FOR THE PROGRAM, TO THE EXTENT PERMITTED BY APPLICABLE LAW. EXCEPT WHEN OTHERWISE STATED IN WRITING THE COPYRIGHT HOLDERS AND/OR OTHER PARTIES PROVIDE THE PROGRAM "AS IS" WITHOUT WARRANTY OF ANY KIND, EITHER EXPRESSED OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. THE ENTIRE RISK AS TO THE QUALITY AND PERFORMANCE OF THE PROGRAM IS WITH YOU. SHOULD THE PROGRAM PROVE DEFECTIVE, YOU ASSUME THE COST OF ALL NECESSARY SERVICING, REPAIR OR CORRECTION.

12.
