

Wi-Fi Right Angle Bracket

Ventev's Wi-Fi Right Angle Bracket with Universal T-Bar Mounting Plate is designed to provide optimal Wi-Fi coverage indoors. The mount can comfortably fit most indoor Access Points and provides maximum protection from dust and tampering without RF interference. Mounts to any wall surface, making it ideal for warehouses, hospitals, campuses and universities. Designed using powder-coated steel, this lightweight mount is easy to deploy and ensures safe and reliable installation.

Every Ventev enclosure is covered by the company's two-year TerraNet warranty program. For questions and to purchase product, contact a Regional Sales Executive at 210-375-8482, 800-851-4965 or sales@ventev.com.

Wi-Fi Right Angle Bracket with Cover
Part #: VN173195
SKU: 521473

Wi-Fi Right Angle Bracket without Cover
Part #: VN173473
SKU: 538527

Features

- Small form factor, lightweight and low profile design
- Offers mounting solution for most Wireless Access Points
- Rigid base design for improved durability
- Able to secure directly to single Gang electrical box
- Designed with cover that swings down for each access to AP and cables (Only applicable to enclosure with cover)
- Designed with cover to conceal cabling and data outlet
- Compatible with most manufacturers' APs

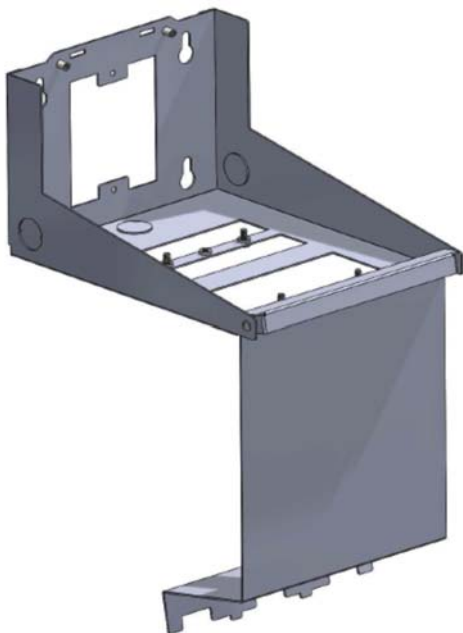

Benefits

- Ensures aesthetically-pleasing appearance with a smaller form factor and lower profile design, reducing overall enclosure volume by up to 50% relative to other industry solutions
- Reduces installation and maintenance time and costs with:
 - Easy access to AP and cables with a swing down cover
 - Elimination of the additional plate to secure enclosure directly to a Gang electrical box
 - No modification/T-Bar removal needed to secure Cisco APs
- Protects the AP with a more rigid base and swing down cover against dust, debris and impact from above
