

Fiskars PowerStep P83 - Pruner

FiberComp (fibreglass reinforced polyamide) - 19 cm

Group	Power Tools
Manufacturer	Fiskars
Manufacturer item no.	1000575
EAN/UPC	6411501116703

Description

Fiskars PowerStep Anvil Pruner P83 for pruning hard wood is a neat and comfortable pruner for gardeners who appreciate design and innovation in a single pair of secateurs. With FiberComp handles for lightness and a PTFE coated upper blade, pruning is a breeze. The intelligent PowerStep mechanism allows users to cut thicker branches in one, two or three steps while the nonstick PTFE coating on the upper blade reduces friction to make cutting and cleaning easier. The anvil blade is made from Fiskars proprietary FiberComp (a fiberglass reinforced polyamide) for increased durability.

Main features

Product Description	Fiskars PowerStep P83 - pruner - 19 cm
Product Type	Pruner
Length	19 cm

Extended details

	General
Product Type	Pruner
Cutting Capacity	24 mm
Features	Anvil blade, soft grip, for right/left handed, PTFE-coated upper blade
	Handle
Handle Material	FiberComp (fibreglass reinforced polyamide)
	Dimensions & Weight
Length	19 cm
