## Power Adapter for Texas 65W 19V 3.42A Plug:5.5\*2.5 Including EU Power Cord

Coreparts AC adapters are built with premium materials to deliver stable and safe power across a wide range of IT devices. Fully compatible with OEM equipment, they include certified protection features to guard against overvoltage, overcurrent, and short circuits—ensuring reliable performance in everyday use. Their compact yet robust design makes them easy to handle and durable in demanding environments. With a wide product portfolio, we support everything from current models to hard-to-find legacy devices. Every adapter comes with a 12-month full warranty and a satisfaction guarantee, including the right to exchange within the warranty period. When you choose Coreparts, you choose quality, compatibility, and confidence

- Premium Build Quality
- Full Compatibility With Oem Devices
- Certified Safety And Protection Features
- Wide Product Portfolio
- Compact And Robust Design
- 12-Month Full Reliable Warranty
- Satisfaction Guarantee With Exchange Option

## Especificaciones

|                   |                                            |                                     |
|-------------------|--------------------------------------------|-------------------------------------|
| Design            | Color de carcasa                           | Black                               |
|                   | Color producto                             | Black                               |
|                   | Interruptor de encendido/apagado           | No                                  |
| Features          | Certificación                              | CE                                  |
|                   | Frecuencia de entrada                      | 50 - 60 Hz                          |
|                   | Material de la carcasa                     | Plastic                             |
|                   | Potencia de salida                         | 65 W                                |
|                   | Tipo de alimentación                       | Indoor                              |
|                   | Tipo de alimentación                       | AC-to-DC                            |
|                   | Voltaje de entrada                         | 110-230 V                           |
|                   | Voltaje de salida                          | 19 V                                |
| Other features    | Baterías incluidas                         | No                                  |
|                   | Protección contra cortocircuitos           | Yes                                 |
|                   | Protección contra sobre-tensión            | Yes                                 |
| Packaging content | Tipos de enchufe de alimentación incluidos | EU                                  |
| Packaging data    | Cantidad por pack                          | 1 pieza(s)                          |
|                   | Tipo de paquete                            | Box                                 |
| Performance       | Compatibilidad                             | Texas Instruments Extensa 550/550CD |
|                   | Compatibilidad con cargador                | Laptop                              |

|                    |                                             |            |
|--------------------|---------------------------------------------|------------|
| Performance        | Conector(es)                                | 5.5*2.5    |
|                    | Tipo de alimentación                        | AC         |
|                    | Tipo de cargador                            | Indoor     |
| Power              | Ajuste automático del voltaje de salida     | Yes        |
|                    | Corriente de salida del adaptador AC        | 3,42 A     |
|                    | Máximo voltaje de salida                    | 19 V       |
|                    | Potencia máxima                             | 65 W       |
|                    | Voltaje de funcionamiento de entrada (mín.) | 100 V      |
| Technical details  | Alimentación                                | 65 W       |
|                    | Consumo de energía (en espera)              | 0,21 W     |
|                    | Dimensiones del enchufe 1                   | 5.5*2.5 mm |
