Lanview Cat6a U-FTP HD-BaseT 4x2xAWG23 LSZH white 305m, Dca

Lanview Cat6a HDbase-T recommended cable.

U-FTP LSZH cables are manufactured and tested to the ISO/IEC 11801, EIA/TIA 568B and EN50173-2 standards. Each cable consists of 4x2 color coded PE insulated conductors. Suited for high-speed cabling systems where there is a need for more bandwidth.

Especially suited for noisy environments or places with limited space in the cable routes.

This Cat 6A cable has been tested and approved by the HDBaseT Alliance.

HD-BaseT is a standard for transmitting and receiving audio, video, and controlling signals over a network cable to remote locations.

In order to get the certification, devices must go through a testing process and be approved by the HDBaseT Alliance to ensure devices are quality controlled and reliable.

The HD-BaseT standard allows the distribution of full HD video, 2K and 4K uncompressed video, audio, 100BaseT Ethernet, power and control across a single Cat 6A cable.
