

Fiskars 1000583, Anvil, Plastic, Black, Orange, Steel, Black/Stainless steel, 686 mm

PowerGear Anvil Lopper (L) L77

Group	Power Tools
Manufacturer	Fiskars
Manufacturer item no.	1000583
EAN/UPC	6411501125804

Description

Fiskars PowerGear™ Anvil Lopper (L) L77 is a full sized lopper for the bigger cutting jobs - for example cutting tree branches and thicker branches in general. The handles are made from FiberComp™ to make them extremely lightweight and strong which is further enhanced by SoftGrip™ covered handles for increased comfort. As with other members of the PowerGear family, the patented PowerGear™ mechanism makes the cutting 3 times easier compared to standard mechanisms, which is a great advantage. The upper blade is made from high quality hardened carbon steel ensuring that they can be sharpened and hold an edge for longer. The quality of the blade is further enhanced by a non stick PTFE coating on upper blade to reduce friction and make cutting and cleaning easier. The anvil blade made from cast aluminium enables easier cutting of hard, dry wood, which is the purpose of anvil loppers.

Main features

	General
Cutting system	Anvil
Handle material	Plastic
Handle colour	Black, Orange
Length	686 mm
Cutting capacity	5 cm
