

MPN: QI-HP1005-MULTI

HP 3500 CMYK Multipack, 18000 pages, f/ HP Color LaserJet 3500

Be environmentally responsible

CoreParts cartridges are remanufactured. When a cartridge is remanufactured, it is reused. Reuse is the highest form of environmental responsibility. With CoreParts toner cartridges you do your part to keep non-biodegradable products out of landfill.

Real cost savings over the OEM equivalent

Technology and automation, high quality components and dedication to excellence make CoreParts toner cartridges the clear alternative to the OEM.

Achieve the same quality and page yield performance as the OEM, but with a considerable saving in cost per page by switching to CoreParts.

Remanufactured cartridges: Guaranteed to fit your printer

Remanufactured cartridges have been recycled and reprocessed from an original equipment manufacturer (OEM) empty core.

Each of the cartridges are rigorously tested throughout the production process including print testing in order to ensure exceptional performance, quality and productivity.

CoreParts supply cartridges that are compatible with all the leading brands:

Epson, HP, IBM, Samsung, Xerox, Konica Minolta, Brother, Canon, Dell, Kyocera, Lexmark, OKI, Panasonic, Ricoh, Océ

4 year warranty

The CoreParts products' defect rate is amongst the best in the aftermarket. Still, a very small number can have a performance issue.

All CoreParts products offer a comprehensive 4 year warranty. During this period, any defective product will be replaced or refunded.

Using CoreParts products WILL NOT invalidate your printer warranty!

In recent years, OEMs have begun aggressively defending their intellectual property and patent rights with legal action. It is now more important than ever for you to perform due diligence when selecting a remanufacturing partner.

Our products fully respect IP patents making them non-comparable to the counterfeit and clone products that are consistently flooding the EMEA market.

With our products, you are fully indemnified against any IP litigation from the OEMs. Make the best choice with CoreParts, the brand you can trust.

Extensive product range

CoreParts offer a wide and deep product selection.

MONO LASER: CoreParts monochrome laser toner cartridges have the same colour quality, performance, and page yield as the OEM equivalent at a fraction of the cost.

COLOUR LASER: Colour printing demands high quality, high performing toner cartridges. CoreParts branded colour products are developed utilising state-of-the-art chemical toner to provide consistent quality and vibrant colours that perform as well as, or better than original cartridges.

EXTENDED YIELD LASER: CoreParts extended yield cartridges guarantee higher yields and lower cost-per-page without sacrificing density or print quality. While some aftermarket solutions may simply offer more toner in the cartridge, CoreParts cartridges are designed to withstand the additional component wear that results from the higher page counts.

- High Quality
- Tested and certified
- Matching Performance
- Reliable with 36 month Warranty

Caractéristiques

Caractéristiques	Compatibilité	Color LaserJet 3500
	Compatibilité de marque	HP
