

Gardena 19034-20, Wireless, Bluetooth, Black, 12 bar, Battery, AA

smart Dual Water Control - water controls; smart

Group	Camping/Outdoor
Manufacturer	Gardena
Manufacturer item no.	19034-20
EAN/UPC	4066407028142

Description

The smart Dual Water Control from GARDENA enables tailored, intelligent irrigation schedules to water two different areas of a garden independently.

Data-driven automation

GARDENA-assisted: The smart Dual Water Control includes an integrated data-driven schedule assistant. It uses real-time weather data and a plant library to analyse how much water plants require. The intelligent water computer then uses this information to adjust the schedules of plant and lawn irrigation.

Smart home integration

Compatible with Apple Home, Alexa, Google Home and more, the smart Dual Water Control can be effortlessly integrated into almost any smart home system. Once setup, lawn and plant irrigation can be controlled from a smartphone or smart home hub, making it convenient to keep plants watered.

High-quality valve technology

The smart Dual Water Control contains a high-quality water control valve and Safe Stop technology. The valve can handle water pressure as high as 12 bar and can also work with pressure as low as 0.5 bar. This helps to ensure a consistent water supply.

For two independent garden spaces

The smart Dual Water Control has two valves with separate controls. Each valve can be programmed with its own water schedules, allowing gardeners to provide two independent areas of the garden with their own tailored levels of irrigation. Users can define individual irrigation schedules for different garden spaces.

Alert in case of frost

When the temperature drops below zero, damage can occur to watering equipment due to frost and ice. The GARDENA smart App* monitors weather forecasts and sends frost alert warning notifications if temperatures drop too low, allowing gardeners to take preventative measures before any damage can occur, protecting their investment and irrigation equipment.

Main features

	General
Connectivity technology	Wireless
Wireless technology	Bluetooth
Product colour	Black
Power source	Battery
Battery type	AA
Battery voltage	1.5 V

Width	163 mm
Depth	131 mm
Height	190 mm
Quantity per pack	1 pc(s)
