## Description

Induction is the modern way of cooking: effective, economical, up to date! The heat is available very quickly, as it is generated directly in the bottom of the pot and not in the cooking surface first. As quick as a gas stove, but much safer with electricity. These high-quality mobile cookers are the perfect match for every kitchen and are also perfectly suitable to be used in holiday homes or offices. The super flat design as well as the first quality materials make them very stylish, the advanced technology ensures convenient handling. The control via slider touch sensors and the high efficiency of induction technology, as well as the easy-care equipment with full-surface glass-ceramic are just a few of the many features that make this series so convincing. Features such as key-lock function, residual heat indication and pot recognition additionally ensure high safety for the users of these attractive induction cooking plates made by Rommelsbacher.
