

Zwilling Plus, 8.5 L, Stainless steel, Aluminium, Stainless steel, Stainless steel, Ceramic, Gas, Halogen, Induction, 240 °C

Multi roaster - 8.5 l

Group	Cookware
Manufacturer	Zwilling
Manufacturer item no.	40993-000
EAN/UPC	4009839325243

Description

The oval multi roaster is 38 cm long, offering enough space for large poultry, for example. It is ideal for frying and browning, because its aluminium base is sandwiched between layers of stainless steel. This structure ensures that the heat is evenly distributed, and all food is evenly cooked.

When slow cooking meat and other foods, the multi roaster from the ZWILLING® plus range has the advantage that its lid seals tight. Hardly any extra liquid is required. This will also help save on energy costs, because you can greatly reduce the heat after frying. You can also use the lid for frying, because it has a SIGMA-Classic base and is big enough for small quantities of food.

The ZWILLING multi roaster is suitable for all type of cooker and can be put in the oven. It has a scratch-resistant high-gloss finish which looks classy and is dishwasher-safe. You can also create a delicious leg of lamb stew, previously marinated in red wine in this roaster. Make tasty meals with the multi roaster, which will enchant your friends and family.

Main features

	General
Volume	8.5 L
Product colour	Stainless steel
Material	Aluminium, Stainless steel
Width	408 mm
Depth	283 mm
Height	192 mm
